April 8, 2005

The Architect of the Capitol awarded John Wayne Construction GSA Division a painting project under their GSA schedule, GS-07F-0350M. The project took place at the "Cannon House Office Building" and the "Longworth House Office Building" home of our United States Congressmen. The buildings were located on Capitol Hill next to the Capitol Building.

Throughout the completion of the projects, the buildings remained occupied. John Wayne Construction ensured none of the building's employees or visitors were inconvenienced in anyway. John Wayne Construction's management and crew were professional and helpful at all times. The job was successfully completed on time and on budget.

We are pleased to have worked with John Wayne Construction on this project. We look forward to working with John Wayne Construction in the future and would recommend them for all your construction needs.

Sincerely,

A handwritten signature in black ink, appearing to read "W. Wood, Jr.", is written over the word "Sincerely,".

William S. Wood, Jr.  
Assistant Superintendent  
House Office Buildings
