**TO WHOM IT MAY CONCERN**

John Wayne Construction has just completed a renovation/remodeling project at the 520 room Holiday Inn SunSpree Resort in Montego Bay, Jamaica, and I would like to personally thank John Wayne Construction for the excellent work they provided on this project.

The work involved a complete renovation and upgrade of the existing guestrooms. John Wayne Construction scope of work included re-painting ceilings, removing existing wall coverings, preparing existing concrete walls to receive new finish, and installing Duroplex seamless Acrylic wall coatings throughout all vertical surfaces with an authentic Old World look that was second to none.

This entire project was completed in an occupied resort that included 7-four story buildings, and John Wayne Construction ensured that none of the buildings, guests, or employees was inconvenienced in any way. All of John Wayne Construction workers were professional and exceptionally courteous, always willing to stop and explain every aspect of their installation. I look forward to working with John Wayne Construction in the future, and would recommend their company to anyone looking for a competent, detailed oriented contractor.

Sincerely,

Carlos Aquino  
GENERAL MANAGER
