

MARCO ISLAND Marriott.
RESORT & GOLF CLUB

November, 1997

Marriott's Marco Island Resort and Golf Club recently completed a 6.5 million dollar renovation project for our south tower guest rooms and lanais. The renovation encompassed a variety of upgrades that included the installation of duraplex.

John Wayne Construction was awarded the contract and it is without hesitation to acknowledge that Wayne Griner and his staff did an exceptional job from start to finish!. They were exceptionally professional and insisted upon keeping us informed of their progress to insure complete customer satisfaction. As the product was being installed, Wayne would continually make it a point to explain the application process throughout the installation. He wanted to make sure that we were absolutely satisfied with his work.

As Resident Manager of the Marco Island Marriott Resort, I would not hesitate in recommending John Wayne Construction for the installation of duraplex. They did a terrific job.

My personal best wishes to Wayne Griner and his staff.

Sincerely,

*Rick Medwedeff
Resident Manager*
